OUR COMMITMENT IS TO PROVIDE QUALITY & PERSONALIZED SERVICE IN EVERYTHING WE DO

WHO WE ARE

Based in Allentown, Pennsylvania, Health Network Laboratories is a multiregional medical laboratory with technologically advanced facilities in Pennsylvania and New Jersey. Health Network Laboratories serves the needs of the public and health care communities performing almost 4 million clinical and pathology tests each year. We offer a full complement of clinical laboratory and anatomic pathology services, including highly specialized esoteric testing to hospitals, physicians, long-term care facilities, assisted-living facilities, industrial/commercial businesses, as well as government agencies.

Electronic Medical Records (EMR)

WEB ENTRY/RESULTS

THE MOST COMPREHENSIVE, WEB BASED, LAB TEST ORDERING AND RESULT REPORTING APPLICATION AVAILABLE

ORDER ENTRY . . .

- Select tests, diagnosis codes and submit orders in just five clicks on ONE screen.
- View specimen requirements.
- Automatically match insurance coverage.
- Place standing orders.
- Check ICD-9 codes and print ABN's.
- Ensure HIPAA compliance.
- Print requisitions and labels.
- Interface seamlessly with your Practice Management System.
- Upon selection of an Anatomic Pathology (AP) test, you can identify biopsy locations and make annotations on selected anatomical images using online

drag and drop technology. As the biopsy locations are selected, the system automatically generates specimen labels for each location. The anatomical image with Locations can be viewed with the report online and the image can be printed separately along with the final report.

RESULT RETRIEVAL

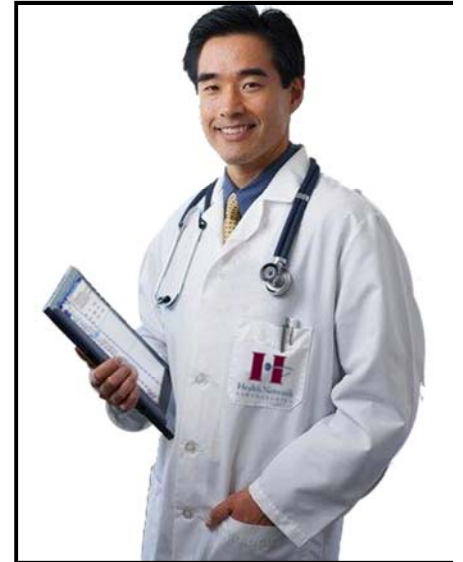

- FROM YOUR DESKTOP:
 - > View lab results immediately after testing.
 - > Go directly to highlighted results with critical or abnormal values.
 - > Locate patients by name, Patient Identification Number, or Social Security Number (SS#).
 - > Create patient categories for easy sorting and follow-up.
- Monitor patient responses to treatments with instant graphs and cumulative reports.
- Print reports with three options: Auto Print, Batch Print or Print on Demand.
- Forward reports securely to specialists and consulting physicians.
- Receive alerts for critical and abnormal values.

RAPID LABS™ REPORTS

REAL TIME . . . SECURE RESULTS

An Internet connectivity solution that securely delivers *real-time* test results through the Internet & streamlines office operations. Step-by-step instructions are provided and technical support is always readily available.

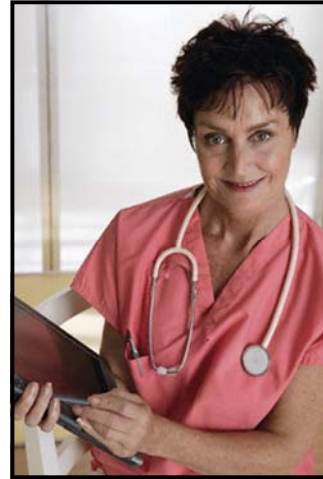

- Patient results without the wait of a hard copy or when reports are difficult to locate.
- Customize how results are received & prioritized by “abnormals” only, result type or by ordering physician.
- Securely share Rapid Labs™ Reports inbox functionality to get complete coverage on days when your office is short staffed.
- Access Real-Time results from anywhere you can access the Internet.
- Track patients progress with cumulative results.
- Graph cumulative results, or chart results with a trend. Graph to display the high and low ends of a test’s reference range.
- Easy access to test results of your recent patients.
- Share results with other physicians with access to Rapid Labs™ Reports.

FAST ORDERS

- Improves accuracy of patient demographics.
- Reduces the need for follow-up questions to the lab.
- Eliminates cumbersome paperwork.
- Prints specimen packing lists prior to laboratory transport.
- Automatic prompt for referral number if required by insurance.
- Your patients' information is secure.
- Easy to use, which means training is simple.
- Easy installation, up and running in one day.
- One screen to enter demographic information.
- Multiple default fields for faster entry.
- Pre-loaded with patient database.
- "Smart" fields alert you if data is incorrect or duplicated.

- Easy patient search using Social Security Number, DOB, Name, Phone Number, or MRN.
- Single screen for fast lab order entry.
- Search and select tests by code or name.
- Search and select ICD-9 code or description.
- Total test price appears on screen.
- Allows for free-text comments.
- Place standing orders.

OPTIONAL HNL INTERFACING FUNCTIONALITY

- ◆ Interface directly with your Office's Practice Management System
- ◆ Interface directly with your Office's Electronic Medical Records
